## Skills

---

### Front-end

HTML / CSS / SCSS / JavaScript / TypeScript / ReactJS / Webpack

### Back-end

NodeJS / Express / Socket.io / PHP / Laravel / Java / MySQL / MongoDB

### Others

Git / Figma / Postman

## Experience

---

### ***TPSoftware - Front-end developer***

Nov 2022 - Now (TW)

Techs: HTML, CSS/SCSS, ReactJS (Redux, Saga), TypeScript, Bootstrap, React Hook Form, Formik, Ant Design, Axios, Yup, Git

Achievements :

- Developed and maintained the BankTaiwan Life Insurance and used Git flow to control the code version.
- Used React Hook Form with Yup to customize validation logic and implement complex forms
- Introduced the concept and implementation of webpack code splitting and tree shaking to the team.

### ***Jeeni limited - Web developer Intern***

Dec 2021 - Jul 2022 (UK)

Techs: HTML, CSS, Bootstrap, JavaScript, Laravel, Git

Achievements :

- Co-developed with engineers from different countries in English through full remote (WFM)

### ***Cloud Interactive - System Analyst***

Jul 2020 - Sep 2021 (TW)

Techs: RESTful API, Relational database, Postman

Achievements :

- Carrefour, Amway, and Bibian's products were created by collaborating in Scrum with cross-team teams of PM, UX/UI designers, developers and QA.
- The time consumption of launching the App was decreased from 6s to 2s by re-connecting to e-commerce services.
- Based on the status of 30+ consecutive users using E-commerce services to automatically open or close the services.
- Planed a large-scale Chinese New Year red envelope activity with 8000+ users per minute.

## Education

---

### ***University of Bristol - MSc Computer Science***

Sep 2021 - Sep 2022 (UK)

Modules : Programming C, Java OOP, Overview of Software Tools

Project - ***NHS Doctor Rota System***

Techs : HTML, CSS (Styled-component), Bootstrap, ReactJS, RESTful API, Relational database, Figma, Git

Achievements :

- Led a front-end developer to optimize his codes and fix the bugs.
- Designed the initial version of API and database specification.
- Created a RWD customized calendar with a filter function

### ***National Cheng Kung University - MSc Photonics***

Sep 2017 - Sep 2019 (TW)
